**Total State and County Rental Car Tax**

Transfer to page one, line 31 of the Combined Excise Tax Return.

## **RENTAL CAR TAX GENERAL INFORMATION**

Rental cars are exempt from motor vehicle excise tax and are subject instead to state and/or local rental car tax on retail car rentals. The 5.9% state rental car tax applies in addition to the retail sales tax. All counties are authorized to collect an additional 1% local tax on retail car rentals. However, only Franklin, King, Pierce and Spokane Counties currently impose the 1% additional tax. In addition, Revised Code of Washington (RCW) 82.14.360 gives King County the authority to collect an additional 2% tax on car rentals to fund a new baseball stadium.

The Regional Transit Authority (RTA) tax is imposed at the rate of .8% on car rentals within the RTA District. This RTA tax is in addition to the RTA reported on page 1 of the excise tax return on the same retail car rental.

“Rental car” means a passenger car used solely by a rental car business for rental to others without a driver provided by the rental car business.

Rental cars must be used **solely** for rental to others. Cars may be moved by the rental car business for the purpose of relocation to another business site, or for the purpose of transporting to or from a maintenance or repair facility. Any other use will cause a car to be subject to motor vehicle excise tax.

“Rental car” does not include:

- A car licensed and operated as a taxicab.
- A leased car that, at the time the lease agreement is signed, is rented for a continuous period of thirty days or more.

The rental car business must register its rental cars with the Department of Licensing under one of the following methods:

1. A rental car business may register all rental cars that are offered for rental in Washington, or
2. A rental car business with in-state and out-of-state locations may register its rental cars under the International Registration Plan (IRP) and allocate registrations according to the provisions of section 1116 of the IRP.

**The RTA and rental car taxes reported on the Rental Car Tax Addendum are due in addition to the retail and local taxes reported on the Combined Excise Tax Return.**

The rental car taxes may be included with the state and local retail sales taxes on your customer’s invoice. For example, if you are in Seattle and the combined state, local and RTA sales rate is 9.0%, and the King County rental car tax is 9.7%, the total tax charged to your customer would be 18.7% OR if you are in King County outside the RTA area the sales rate is 8.6%, and the King County rental car tax is 8.9%, the total tax charged to your customer would be 17.5%.
