Instructions for Completing the Natural Gas Use Tax Addendum

Either the public utility tax or the natural gas use tax is due on purchases of natural gas.

Important: Include your tax registration number on all correspondence and checks.

State Natural Gas Use Tax

Volume (in therms): Enter a whole number for the total volume (in therms) of gas delivered this period. If your company received natural gas in more than one location, enter the total volume for all locations. This information will be cross-matched with the quarterly reports required from the local distribution companies.

1 MMBTU = 10 therms OR 1 therm = 100,000 BTU's.

Purchase Price: Enter only the purchase price of the gas. Do not include transportation charges.

Transportation Charges: Enter the amount of separately stated interstate and intrastate transportation charges that were not subject to public utility tax.

Total Value: Add the purchase price and the transportation charges and enter the total.

Total State Tax Due: Multiply the total value by .03852 and enter the result.

Local City Natural Gas Use Tax

From the chart below, find the city and tax rate in which you used your natural gas.

Enter the four-digit code for your city in the "Loc. City Code" column.

Enter the total value, local rate, and calculate the city tax due for each location.

Note: If your natural gas was used at a county address, you only need to complete the state portion of this tax.

State and Local City Credit(s)

If you paid tax to another state on gas used, you may be able to take that amount as a credit. Prorate the credit to the state and city portion (if applicable) of the tax based on the relative rates of the taxes.

How to Report Prior Period Adjustments

Make a copy of the original return, cross out the incorrect information and write in the correct information. You may also use a blank Natural Gas Use Tax Addendum by filling in the correct information. For either method, write "amended" at the top and include a letter of explanation.
