**V. TOTALS**

12. Tax Due	<input type="text"/>
13. Less Credits	<input type="text"/>
14. Subtotal	<input type="text"/>
15. * Add Penalty, if Applicable (Minimum \$5.00) _____ %	<input type="text"/>
16. Total Amount Due	<input type="text"/>

# INSTRUCTIONS FOR COMPLETING THE NATURAL GAS USE TAX RETURN

## HOW TO REPORT YOUR TAXES

- **State Natural Gas Use Tax** - Enter the total volume of gas, in therms, delivered for this quarter in the "volume in therms" column. If your company received brokered natural gas in more than one location, enter the total volume for all the cities. This information will be cross-matched with the quarterly reports required from gas deliverers.  
1 MMBTU = 10 therms or 1 therm = 100,000 BTU's.
- **Purchase Price** - Enter the purchase price of the gas delivered in the quarter. Enter only the price of the gas. Do not include the transportation charges.
- **Transportation Charges** - Transportation charges are exempt if all or part of the transportation charges for the delivery of the brokered natural gas are separately subject to the state's public utility tax (RCW 82.16.020(1)(c)) and the cities' public utility tax (RCW 35.21.870). Enter the non-exempt amount charged for interstate transportation on the gas delivered for this period on line 1.  
  
The tax is structured so that either the public utility tax or the natural gas use tax is paid.
- **Total Value** - Add the purchase price and the transportation charges, then enter the total value on line 1.
- **Total State Tax Due** - Multiply the total value times the tax rate and enter the result in this column.
- **Local City Natural Gas Use Tax** - From the chart at the bottom of the page, find the city and tax rate in which you received your brokered natural gas.

If the delivery address is in the county, you only need to complete the state portion of this tax on line 1.

Enter the four-digit code for your city in the city code column. Enter the total value, tax rate, and tax due for each city location code.

## HOW TO REPORT CREDITS

- **Credits** - A credit is allowed against this use tax for any use tax paid by the consumer to another state on the gas consumed or used and subject to this tax. Any use tax allowed as a credit shall be prorated to the states' and cities' portion of the tax based on the relative rates of the taxes.

A credit is also allowed against the use tax imposed by the state for any gross receipts tax imposed by another state on the seller of the gas with respect to the gas consumed or used.

A credit is allowed against the use tax imposed by the cities for any gross receipts tax imposed by another state or political subdivision of the state on the seller of the gas with respect to the gas consumed or used.

## HOW TO REPORT PRIOR PERIOD ADJUSTMENTS

- **Prior Period Adjustments** - Make a copy of the original return. Cross out the incorrect figures and write in the correct figures, or use a blank natural gas use tax return with corrected figures. Write amended at the top of the return and include letter of explanation.

## MISCELLANEOUS

- **Miscellaneous** - Tax reporting account number must be included on all correspondence including checks.

## CITY CODES AND TAX RATES

Code	City	Rate	Code	City	Rate	Code	City	Rate
1701	Algona	.06000	3704	Ferndale	.06000	3210	Spokane	.06000
