Washington State House of Representatives

FROM: Drew Shirk, Director

SUBJECT: Vehicles Using Clean Alternative Fuels and Electric Vehicles Report

RCW 82.08.9999(4) requires the Department of Revenue (Department) to provide the Transportation Committees of the Legislature with a biannual report regarding the clean alternative fuel vehicles sales and use taxes exemptions provided in RCW 82.08.9999 and 82.12.9999. The reporting requirement began with the first report due by October 31, 2019, and updates are required every six months until the exemption expires. The sales and use taxes portion of the exemption expired on July 31, 2025. Leases that qualified for this exemption on or before July 31, 2025, can continue to claim the exemption on lease payments due through July 31, 2028.

The Department and the Department of Licensing (DOL) generate the data for this report. Businesses registered with the Department must report each qualifying vehicle sale or leased vehicle on their excise tax return. The Department provides a worksheet for the business to submit the total exemption amount. The worksheet requires the business to report the vehicle year, make, model, and sales price or lease terms for each transaction. Qualifying vehicle transactions occurring at DOL must include similar details.

The report presents cumulative data from August 1, 2019, the start date of the exemption, to the last day of the month preceding the date reflected on this report (September 30, 2025). The data is summarized by the month of purchase or lease start date for the qualified vehicles. For each month, the data is broken down further by:

- Vehicle year, make, and model;
- New or used vehicle;
- Dollar amount of all exempted state sales and use taxes; and
- An estimate of the future costs of qualified leased vehicles.

Each report is cumulative and includes any adjustments or additional data provided to the Department as of the date indicated in each report.

The data for this report, as of October 7, 2025, is detailed on the following pages.

The report is also available on our website at: https://dor.wa.gov/about/statistics-reports.

If you have questions about the current report, please contact Kathy Oline, Assistant Director of Research and Fiscal Analysis, at (360) 534-1534.

Vehicles Using Clean Alternative Fuels and Electric Vehicles Report
October 2025
General Information

Description of report
This report represents retail sales and use tax exemptions for qualifying clean alternative fuels and electric vehicles. The report reflects the data available as of October 7, 2025, for the time period of August 1, 2019, through September 30, 2025. Department of Revenue (DOR) and Department of Licensing (DOL) generate the data for this report. Businesses registered with DOR must report each qualifying sale or leased vehicle on their excise tax return. DOR provides a worksheet for the business to submit the total exemption amount. The worksheet requires the business to report the vehicle year, make, model, and sales price or lease terms for each transaction. Qualifying vehicle transactions occurring at DOL must include similar details. Taxpayers and DOL subagents manually enter vehicle data. DOR limits review and correction of the data to obvious inaccuracies such as misspellings due to the time constraints of the report. The data is described below and detailed on the following pages.

Summary table
The summary provides the total non-taxable exempt amount for each table as well as the overall state retail sales and use tax. The summary table does not include the subtotal from the DOR-Leases table. The other tables include qualified leased vehicles and represent the exemptions already received. The DOR-Leases table reflects future estimated lease costs.

DOR - Retail sales tax, DOR - Use tax, and DOL - Use tax tables
Data is summarized by month of purchase or lease start date for the qualified vehicles. For each month, the data is broken down further by:
- Vehicle year, make and model;
- New or used vehicle; and
- Dollar amount of exempted state sales and use tax.

The sales and use taxes portion of the exemption expired on July 31, 2025.

DOR - Leased vehicles table
Data is summarized by month and year of the lease start date for each qualified vehicle. The estimated future lease costs are summed by vehicle year, make and model. The estimated future lease costs are calculated based on the data received by DOR. Businesses report the lease term including monthly payment as part of the worksheet required when submitting their excise tax returns. To calculate the estimated costs, the monthly payment is multiplied by the remaining months of the lease term.

Leases that qualified for this exemption on or before July 31, 2025, can continue to claim the exemption on lease payments due through July 31, 2028.

Data sources
- Department of Revenue excise and use tax returns; and
- Department of Licensing use tax transactions.

Table 1: Vehicles Using Clean Alternative Fuels and Electric Vehicles Report Summary

The data in this table summarizes the overall cumulative total exempt vehicle count and non-taxable exempt amount, total exempt state sales and use tax to date, and the estimated future cost of the exemption for leased vehicles.

Table name	Count of Vehicles	Non-Taxable Exempt Amount
DOR Retail sales tax	47,282	$758,487,767
DOR Use tax	40	$637,092
DOL Use tax	32,928	$465,370,360
Total	**80,250**	**$1,224,495,219**

Total Exempt State Sales & Use Tax	**$79,592,189**

Estimated Future Cost of Leased Vehicles	**$1,446,371**

Table 2: DOR - Retail sales tax exemption RCW 82.08.9999

The data in this table reflect transactions submitted to the department through taxpayer returns received from August 1, 2019, through September 30, 2025.

Filing Month	Filing Year	Vehicle Year	Vehicle Make	Vehicle Model	New or Used	Count	Non-Taxable Exempt Amount
August	2019	2018	CHRYSLER	PACIFICA	New	17	$424,270
